Re: Notice of Intention to Commence Small Mining Activities, Welcome Spring/RC Claims Project, S/053/043, Washington, County, Utah

Dear Mr. Terry:

The BLM forwarded a copy of your amended plan of operations for your RC Claims Project. This project was formerly filed as an exploration project, file number E/053/031. Your amended notice does not satisfy the requirements of Rule R647-3 of the Utah Mined Land Reclamation Act of 1975, Title 40-8, et seq., Utah Code Annotated. Because you are amending your project to go from the exploration stage to now start up mining, we request that you submit a Notice of Intention to Commence Small Mining Operations (NOI). We have enclosed a small mining application form (MR-SMO) along with a MR-SMO form that has been partially completed. Please use the partially completed form as a basis for filling out the blank MR-SMO form and return it to us directly. We have assigned a new small mining file number to your Welcome Spring/RC Claims Project, S/053/043.

The Division will suspend review of your amended notice submitted to the BLM and await your Small Mining Operations Notice of Intention. Upon receiving your Small Mining Application, we will at that time close out the exploration file E/053/031 and combine it into the new small mining file. Do not hesitate to call me if you have any questions. In reply, please refer to S/053/043.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
